

Fire Extinguisher Training

Course Overview

The fire extinguisher course is aimed at employees (particularly new staff) who require training in relation to Occupational Health and Safety requirements in reducing the risk in the workplace from fire.

This course is designed for personnel in all workplaces. The skills and knowledge gained through this course can be applied in a range of settings including the home and will assist in maintaining a safer workplace.

Upon completion of this course participants will be able to identify the correct extinguisher to use on a particular class of fire and be able to correctly extinguish a fire using the appropriate technique. The unit of competence is *Operate portable workplace firefighting equipment*.

Aim

To provide participants with an awareness of the dangers that may be posed by fire to people, property and business continuity.

The recognition of individual responsibilities to report fire and how to initiate appropriate safe actions in accordance with the building emergency plan should a fire occurs.

Learning Outcomes

By the end of the course the participants should:

- Know their responsibilities under Occupational Health and Safety.
- Know the importance of a building emergency plan
- Be able to identify the dangers in their work area
